

Hello :-)

# Findings

1. Bouba & kiki
2. making a question based on a lived experience and see what kind of music would be listen to.
3. an other question but with a yes or no answer.
4. An exercise, you need to listen to a series of different sounds and draw during this time, everytime the sound change you need to change the color you're using.
5. an exercise about colors and how they can be associated with sounds and feelings but this time asking what sound do they hear seeing these colors
